

This legislation will grant the consortium ownership over two parcels of land totaling approximately 3.5 acres, thus allowing the consortium to streamline its operations and conduct building refurbishments without reliance on the Federal Government.

My late friend and colleague, Representative Don Young, championed these three land transfers, now combined into H.R. 441, to promote health equity among rural Alaska Natives. His work on behalf of Indian Country never ceased throughout his time in Congress.

I am grateful that we are here today to support this legislation and these three critical Tribal health entities in Alaska, a reminder of the support that Indian Country received from Don Young.

I urge my colleagues to support the bill and call for its swift passage, and I reserve the balance of my time.

Mr. BENTZ. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in strong support of H.R. 441, as amended, that will direct the Secretary of Health and Human Services, acting through the Indian Health Service, to convey by warranty deed and for health-related activities certain parcels of Federal land to the Tanana Tribal Council, the Southeast Alaska Regional Health Consortium, and the Alaska Native Tribal Health Consortium.

This amended text is a compilation of three separate Indian healthcare land transfer bills for the State of Alaska introduced by the late Congressman Don Young. All three of these bills were favorably reported out of the Committee on Natural Resources by unanimous consent during this Congress.

The first land transfer directed under this act includes 10.25 acres of land in Tanana, Alaska. In 1995, the Tanana Tribal Council assumed responsibility for healthcare services from the Indian Health Service. The parcel of land the Tribe is seeking title to encompasses a portion of a former Indian Health Service hospital site. The council intends to use the land to construct a new community wellness clinic, expand eldercare, and develop nursing services.

The second transfer includes 10.87 acres of land that is part of the Mt. Edgecumbe Hospital campus in Sitka, Alaska. The Southeast Alaska Regional Health Consortium is a Native-run nonprofit health organization that assumed responsibility for providing healthcare services from the Indian Health Service in 1976 and currently operates its Mt. Edgecumbe Hospital in Sitka. The consortium intends to use the parcel to support future hospital expansion and replacement.

The third land transfer under this act includes 3.5 acres of land that is part of the Alaska Native Medical Center campus in Anchorage. In 1999, the Alaska Native Tribal Health Consortium assumed responsibility for healthcare services from the Indian Health Serv-

ice, and the consortium provides comprehensive medical services at the Alaska Native Medical Center.

The ANTHC is the largest Native-run nonprofit health organization in the United States, serving more than 178,000 Native Alaskans. Gaining title to the parcels will enable the ANTHC to streamline its operations, update and refurbish, and expand the hospital's capacity to offer health services to patients outside of Anchorage.

Before I conclude, I will take a moment to again recognize all the hard work Congressman Young put into serving his constituents and, notably, his work for Native people in Alaska during his tenure in Congress. I think it is more than appropriate that we are renaming this legislation after the late dean of the House, further memorializing his efforts for Native Alaskans. Mr. Young will be deeply missed by all of us.

Madam Speaker, I urge adoption of this bill, and I yield back the balance of my time.

Mr. GRIJALVA. Madam Speaker, I thank Representative BENTZ for his work on these pieces of legislation today and acknowledge his work on Representative MENG's H.R. 3525, in particular. There were difficult things to navigate there, and we appreciate the effort on his part. Hopefully, we were as cooperative.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Arizona (Mr. GRIJALVA) that the House suspend the rules and pass the bill, H.R. 441, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to provide for the conveyance of certain property to the Tanana Tribal Council located in Tanana, Alaska, the conveyance of certain property to the Southeast Alaska Regional Health Consortium located in Sitka, Alaska, and the conveyance of certain property to the Alaska Native Tribal Health Consortium located in Anchorage, Alaska, and for other purposes."

A motion to reconsider was laid on the table.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 6:30 p.m. today.

Accordingly (at 4 o'clock and 22 minutes p.m.), the House stood in recess.

□ 1831

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro

tempore (Ms. PORTER) at 6 o'clock and 31 minutes p.m.

AMERICAN FISHERIES ADVISORY COMMITTEE ACT

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the unfinished business is the vote on the motion to suspend the rules and pass the bill (S. 497) to establish the American Fisheries Advisory Committee to assist in the awarding of fisheries research and development grants, and for other purposes on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Arizona (Mr. GRIJALVA) that the House suspend the rules and pass the bill.

The vote was taken by electronic device, and there were—yeas 404, nays 11, not voting 14, as follows:
